notes

July 2018 Newsletter

This month our main focus is teaching children about Swimming, Beach and Pool Safety. Summer is here, have your children here at 9am our main events will be happening at that time. Child will need towel, swimsuit and water shoes, and change cubbies to summer clothes.

Author of the Month: The author of over 100 picture books for children, many of them about wildlife. But best known for another kind of wildlife: Froggy. His first book, *FROGGY GETS DRESSED*, was published in 1992. It is on the New York Public Library's 100 Picture Books Everyone Should Know list, dating back to *The Tale of Peter Rabbit*. My 25th Froggy book is *FROGGY'S BIRTHDAY WISH*, due March 10, 2015.

Froggy is every kid. All the stories are based on true experiences had his sons Aaron and Sean, and on some memories of my own growing up. He just exaggerates a little for humor. Kids who read the Froggy books will recognize a little of themselves, and be able to laugh at their own foibles.

School News

- **Sprinkler Days**
(swim suit, water shoes, towel)
- **11th Bouncy house**
- **17th Wear your fav. character shirt**

- **23rd Crazy hair day**
- **24th Sports Day**
- **25th Mix Match Day**
- **26th Hat Day**
- **27th Career Day**

Make Water Safety Your Priority by American Red Cross

- Swim in designated areas supervised by lifeguards.
- Always swim with a buddy; do not allow anyone to swim alone. Even at a public pool or a lifeguarded beach, use the buddy system!
- Ensure that everyone in the family learns to swim well. Enroll in age-appropriate Red Cross water orientation and Learn-to-Swim courses.
- [Never leave a young child unattended near water](#) and do not trust a child's life to another child; teach children to always ask permission to go near water.
- Have young children or inexperienced swimmers wear U.S. Coast Guard-approved [life jackets](#) around water, but do not rely on life jackets alone.
- Establish rules for your family and enforce them without fail. For example, set limits based on each person's ability, do not let anyone play around drains and suction fittings, and do not allow swimmers to hyperventilate before swimming under water or have breath-holding contests.
- Even if you do not plan on swimming, be cautious around [natural bodies of water](#) including ocean shoreline, rivers and lakes. Cold temperatures, currents and underwater hazards can make a fall into these bodies of water dangerous.
- If you go boating, wear a life jacket! Most boating fatalities occur from drowning.
- Avoid alcohol use. Alcohol impairs judgment, balance and coordination; affects swimming and diving skills; and reduces the body's ability to stay warm.
